# Syringe & Needle

### Syringe without Needle (Luer Slip / Luer Lock)

- Administering injections into the human body.
- Single use only
- 3 years of shelf – life

#### Product Information

Syringe Volume	Needle Size	Packing unit	
		Unit per Box	Unit per C/T
1cc syringe	Without Needle	100	3,000
3cc syringe	Without Needle	100	2,400
5cc syringe	Without Needle	100	1,800
10cc syringe	Without Needle	100	1,200
20cc syringe	Without Needle	50	600
30cc syringe	Without Needle	50	600
50cc syringe	Without Needle	25	300

### CAP TYPE Syringe

- Administering injections into the human body.
- Constructed with color-coded plungers for easy drug identification.
- Single use only
- 3 years of shelf – life

#### Product Information

Syringe Volume	Color	Packing unit	
		Unit per Box	Unit per C/T
1cc syringe (S/T)	Blue	100	3,000
	Pink	100	3,000
	Green	100	2,400
3cc syringe (S/T)	Yellow	100	2,400
	Pink	100	2,400
	Blue	100	2,400
3cc syringe (L/T)	Green	100	2,400
	Yellow	100	2,400
	Pink	100	2,400
5cc syringe (S/T)	Blue	100	2,400
	Green	100	1,800
	Yellow	100	1,800
5cc syringe (L/T)	Pink	100	1,800
	Blue	100	1,800
	Green	100	1,800
10cc syringe (S/T)	Yellow	100	1,200
	Pink	100	1,200
	Blue	100	1,200
10cc syringe (L/T)	Green	100	1,200
	Yellow	100	1,200
	Pink	100	1,200
10cc syringe (L/T)	Blue	100	1,200

### Insulin Syringe

- Disposable sterile syringes combined with needles in a single unit, used for injecting insulin into the subcutaneous tissue for the purpose of treating diabetes.
- Single use only
- 3 years of shelf – life

#### Product Information
